THE COUNCIL FOR TOBACCO RESEARCH—U.S.A., INC.
900 THIRD AVENUE
NEW YORK, N.Y. 10022

ROBERT F. GERTENBACH
PRESIDENT

November 10, 1987

Prof. Francesco Clementi
Cattedra di Farmacologia
Università degli Studi di Milano
20129 Milano
Italy

Dear Prof. Clementi:

The Scientific Director and CTR's staff have discussed your letter of October 27 concerning partial funding of the NATO Symposium "The Acetyl Choline Nicotinic Receptors in the Nervous System", and have recommended against support. Increased competition for our project grants has intensified the pressures on our relatively modest research budget and we have been forced to restrict our assistance for conferences.

Sincerely,

R. F. Gertenbach
